

## INTERVIEW TIPS

Looking to land your dream job? It's all about preparation and showing your passion! Here are some tips to help you rock your next interview:

### **Be punctual!**

Being late can make you seem unreliable, so aim to arrive early and make a good impression.

### **Make an Impression:**

It's totally normal to feel nervous, but don't let that hold you back! Use your nerves to your advantage and show your passion for the job. Eye contact and a strong handshake can make a big difference in how confident you come across. Remember to be professional, not arrogant.

### **Do your research!**

Show the interviewer that you're genuinely interested in the company and why you want to work there. Soft skills like initiative, motivation, and drive are also important, so make sure you demonstrate those too.

### **Don't be afraid to have an opinion!**

You may be asked about the future of the media industry, so be prepared to support your views with a convincing argument.

### **Always have questions to ask at the end of the interview!**

This shows that you're interested in the company and helps you find out if it's the right fit for you. Don't be afraid to ask about things like training, company culture, and how your success will be judged. Remember, the interview is a two-way street! Use it as an opportunity to find out if the company culture is a place that excites and inspires you.

### **Be prepared for the interviewer's questions!**

Think about what questions might come up and be ready to talk about your strengths, achievements, and why you're a great fit for the job.
